

## COMPARING PRODUCTS

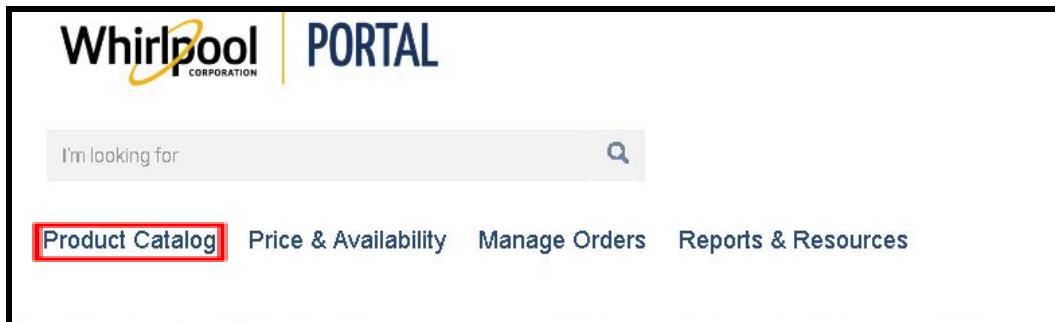

### Purpose

Use this Quick Reference Guide to view the steps to compare products through the Whirlpool Portal.

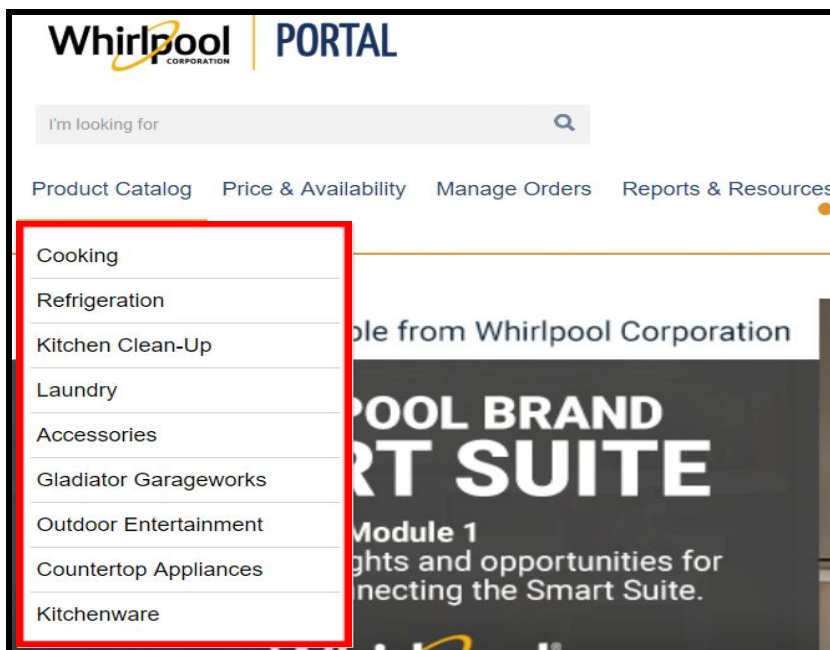

- There are three locations to select products to compare on the Whirlpool Portal:
  - Search results page
  - Product description page
  - Alternate models page

### Steps

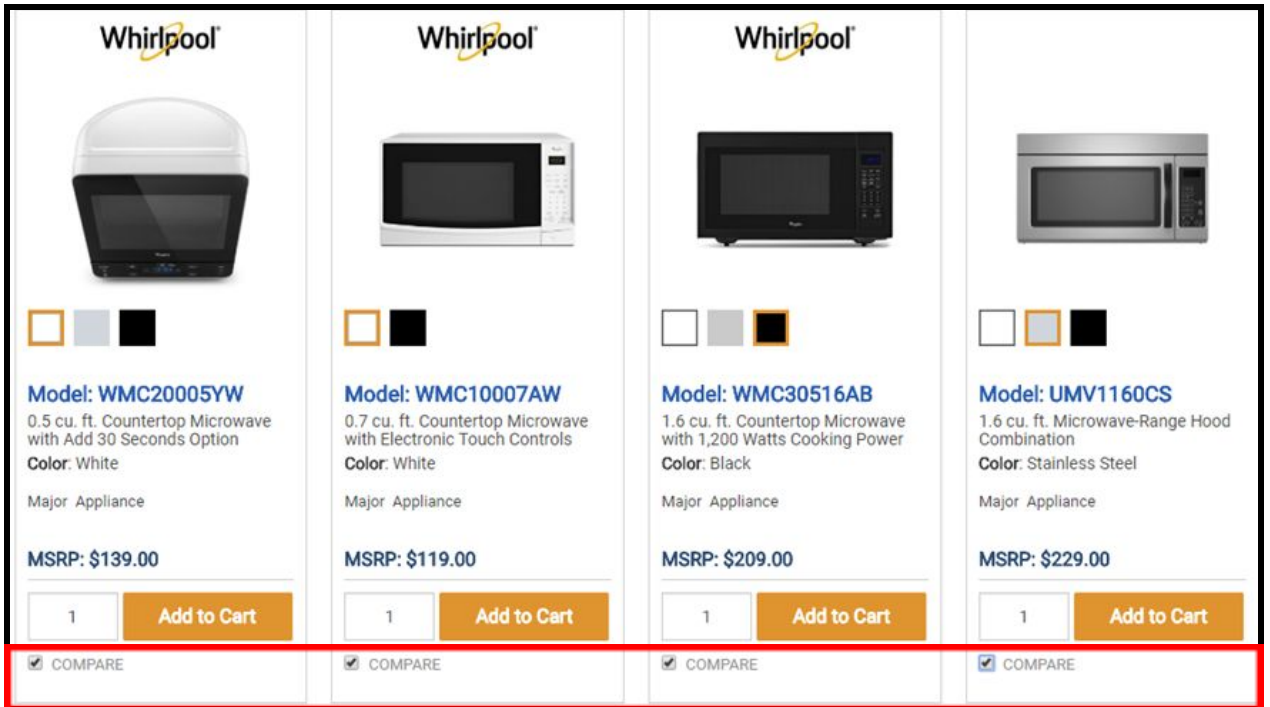

1. Start on the Whirlpool Portal **Home** page. Select the **Product Catalog** tab.

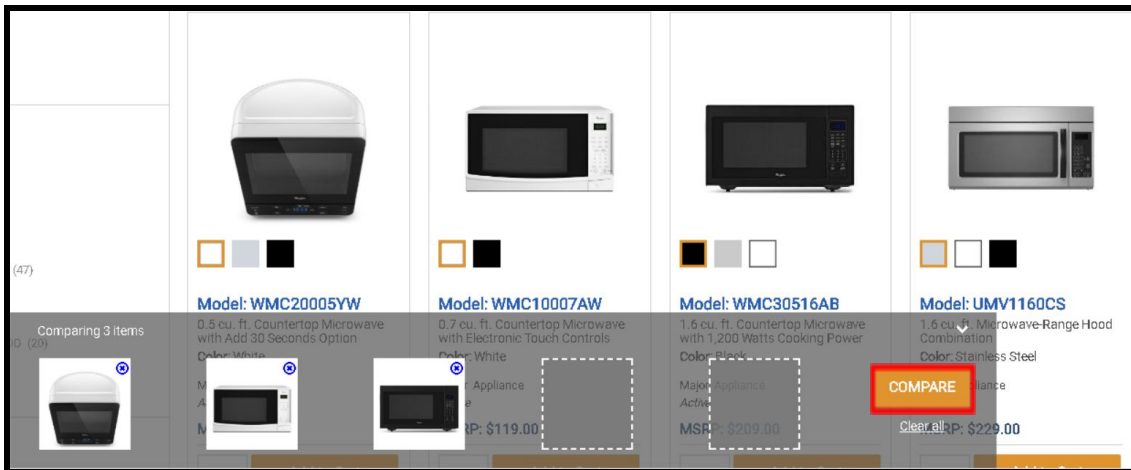

2. Select the item category.

- Select the **Compare** checkbox of the desired models to compare.
  - Up to 5 products within the same category can be compared at one time.

- Click **Compare**. The **Compare** page displays.

- The individual model features display under their image.
  - Adding products from different categories to the compare list does not erase previously selected products. Each product category is given its own tab.

3. Click **Compare**.

The screenshot shows a comparison interface for two Amana electric ranges. On the left, the ACR4303MFB is listed with a price of \$399.00. On the right, the AER6303MFB is listed with a price of \$549.00. A comparison bar at the bottom contains two product thumbnails, a 'CANCEL' button, and a highlighted 'COMPARE' button. Below the thumbnails are links for 'ADDITIONAL RESOURCES' and 'TOOLS & RESOURCES'.

4. The individual model features display under their image.

The screenshot displays two individual product pages side-by-side. The left page is for model ACR4303MFB (\$399.00) and the right page is for model AER6303MFB (\$549.00). Both pages show the product image, color swatches, and a 'VIEW DETAILS' button. Below the product pages is a 'Features' comparison table.
